## Fall 2020 Professional Development Grant Application Now Open Through **October 31st, 2020**

UBAA was formed in 2007 to promote general aviation advocacy, safety and education throughout Utah. A major focus of UBAA's goals is creating awareness and understanding about the positive benefits of business aviation within our state and furthering the education of our future industry leaders.

While we have an established [scholarship program](#) designed for accredited aviation college students in Utah, we have decided to create this new grant opportunity for existing or aspiring business aviation professionals looking to enhance their professional career goals. We at UBAA feel both programs are vital in order to ensure that our industry has a plan to support the development of future business aviation managers, dispatchers, mechanics and pilots. As UBAA's membership and local interest grows, it is our hope that this newly-established professional grant program will grow as well.

UBAA and our generous sponsors invite interested applicants seeking business aviation learning opportunities such as advanced certificates or ratings, educational courses, professional conferences, online training, NBAA courses via NBAA GO, Six Months to CAM, NBAA PDP courses, etc. If you have been waiting to pursue advanced professional educational opportunities due to lack of funding or company financial support, please apply today!
